# New Light <sup>80<sup>th</sup></sup> Anniversary of the Fall of Singapore on an Old Tale

This year, we mark 80 years since the Fall of Singapore through artefacts that bear testament to our difficult path to nationhood.

Come visit the “New Light on an Old Tale” exhibition that tells the story of the changing fortunes of a tiny island caught between two empires who were once friends turned foes. You may also be interested in our curated series of programmes that present the events of World War II and the Japanese Occupation of Singapore in a new light.
